3. ☐ At least one amendment has been filed subsequent to the final rejection, and the brief does not contain a statement of the status of each such amendment (37 CFR 41.37(c)(1)(iv)).
4. ☒ (a) The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number and to the drawings, if any, by reference characters; and/or (b) the brief fails to: (1) identify, for each independent claim involved in the appeal and for each dependent claim argued separately, every means plus function and step plus function under 35 U.S.C. 112, sixth paragraph, and/or (2) set forth the structure, material, or acts described in the specification as corresponding to each claimed function with reference to the specification by page and line number, and to the drawings, if any, by reference characters (37 CFR 41.37(c)(1)(v)).

1. The heading "Summary of the Invention" should read "Summary of claimed subject matter". The "Issues" should be labeled "Grounds of rejection to be reviewed on appeal". Headings for "Evidence appendix" and "Related proceeding appendix" have not been provided. Even if none exists, as is apparent, these headings must be provided followed by "none".

4. Only independent claims are to be included in the summary and the wording of each is be linked to the specification and specifically discussed. The present brief provides all claims, a reference to the specification for each claim, and an explanation of the invention in general, not in relation to the individual independent claim.

10. There should be no "grouping of claims" section.
